BURN THE STRAW MAN

Burn the straw man
Burn the straw man
Burn the straw man
Light a match and watch it burn
Burn the fucking straw man down

Now who is the victim and what is the charge
We've been stuck in this system for years
There's a human being wanted at large
He's a status code, a shit stain, a fucking disease
Let's go

We're just legal fiction
They make you up and take a name
A piece of paper gave you a life but they treat you
Like a thing
They have ways of distraction
They keep you entertained
Keep watching don't ask questions
reinforce the make believe

They're watching me, they're watching you
They're watching me, they're watching you
They're watching me and they're watching you

Be afraid
Be very afraid
Burn like a straw man
Burn like a straw man
Burn
Understand
Do you stand under me
Burn like a straw man
Burn like a straw man
Burn
Understand
Do you stand under me
Burn like a straw man
Burn like a straw man
Burn
Understand
Do you stand under me
Burn like a straw man
Burn like a straw man
Burn
Understand
Do you stand under me
Burn like a straw man
Burn like a straw man
Burn

I'm sick of following the leader
I'm sick of the shame
I've been sick from the cloud of smoke
Blinding this game
So put your left foot in and your right foot out
And charge that mother fucker
Knock the straw man down
He has a million voices telling us lies
Describing your fate to your face
While scripting your demise
He uses fear as his favorite play hiding his eyes
For the calm and innocent who wreak of surprise

They're watching me, they're watching you
They're watching me, they're watching you
They're watching me and they're watching you

Be afraid
Be very afraid
Burn like a straw man
Burn like a straw man
Burn
Understand
Do you stand under me
Burn like a straw man
Burn like a straw man
Burn
I'm afraid
I'm very afraid
Burn like a straw man
Burn like a straw man
Burn
Understand
Do you stand under me
Burn like a straw man
Burn like a straw man
Burn
Understand
Do you stand under me
Burn like a straw man
Burn like a straw man
Burn
Understand
Do you stand under me
Burn like a straw man
Burn like a straw man
Burn

Burn the straw man
He is no man
Burn the straw man
He is no fucking man

Light a match and watch it burn
Put your hands up take a turn
Light a match and watch it burn
Put your hands up take a turn

CARLA HARVEY - VOCALS

LILITH

Welcome!
To my kingdom of hearts
Feed my ego with lust
Slide my fingers inside
And spread you
Like warpaint on my skin
And now you're welcome
By the grace of my hands
Take in my wonderland
Where the streets painted red
Fill me with your poison in my skin
And now you're mine

Cover me with your youth and beauty
Your death stings a rose in bloom now faded red

Bow Down
Im the Vasalissa
The Queen
The Queen of Hearts
Bow down
Kiss the rings Agahpa me'
The Queen
The queen of Hearts

The faithful grab the holes in their chests
Spill the blood of my blood
I stain the rouge on my face
Bath me in your crimson, the story of
your life ends now

Your life flows circles around
We are one in this blood sea
Let's paint this town red
Your heartbeat muffled in my hands
I am you and you are me
Let's paint this town red

Cover me
Cover me
Cover me with your youth

HEADSPIN

We're all alone I'm moving closer now
I need to feel you running through my veins
A straight shot piercing through my skin
It's not enough, I need to drink you in
My lungs are hot and begging for more air
But my body is half way there and waiting for
the beating of my heart to catch up
till we shake

Please Don't tell me that
You're leaving now
Stay and bury
yourself in me

He said please just don't stop
Please don't stop until
I'm screaming your name
It's a head spin until
we're both insane again
Don't stop till I'm screaming your name
He said I just wont stop
I wont stop till your screaming my name
It's ahead spin until we're both insane again
Don't stop till I'm screaming your name

Hold me closer and pull me under with our fingers
interlocked as we're blurring the lines
It's been a long day
I'm in a bad way
Give it to me, I need to know you're mine
Steady hands cause we've been here before
I want it all
Not wasting time so give me some more-
I want it now
Stay and bury yourself in me

My body aches, my body shakes
I try to scream but nothing comes out
My body aches, my body shakes
I try to scream but nothing comes out
Melting into submission
I feel the sweat drip it blurs my eyes
My body aches, my body shakes
I try to scream but nothing comes out

KOROVA

Seems like forever you've been
Feeding me these nightmares, dearest friend
Just to be the one that saves me when I scream
cause you're my only friend now I'm a hollow man

Run the night past the dogs that snarl and bite
My cow, korova, come with me
Guns are drawn bright against the snow they shine
My cow, korova come with me

Woah oh We can live forever
If we die we die together
Woah oh run with me, run with me

Look me in the eyes
Tell me Who is your friend who is your enemy
You have no friends among capitalists
You have no enemies among the workers
Friend? Now I'm your enemy
Simple hearted trusting man, hold my hand
Now liberate me

Now it's clear you were never human at all
My cow, korova come with me
My salvation brought with me to take the fall
My cow, korova come with me

Woah oh We can live forever
If we die we die together
Woah oh run with me, run with me

Woah oh set it all on fire
And if we burn, we burn together
Woah oh run with me, run with me

I wont forget the night you arrived
Swollen with fear
I had to have you
My korova, Korova, My Korova

Run through the night, run to the light
Run through the night
Run like it's the last night of your life

If you really love me give me what I crave, my dearest friend
You never really knew me as the real me till the bitter end

V

Woke up
I woke up in a plastic bubble
Breathing the plastic air but you weren't
there to calm calm my nerves
For the first time didn't even care
I got up walked around these cold dark places on my own

All, all the while tripping **#IWOKEUPLIKETHIS**
While Tripping on my toe tag
Choking on my consciousness cause now
I know I've died the most
All, all the while Tripping
While Tripping on my toe tag
Confusion came to check my pulse
cause now they know I've died the most

TOE TAG
TOE TAG

Sign and date my toe tag
Stamp and tie my toe tag
Lace it up
Toe Tag
Bag me up my toe tag

Woke up
See bags of blood they're all my type
Breathe in the putrid smell of my own skin
It rots off my bones
Looking at the others rotting too
I got up touched the ground felt the cold
Concrete below my feet

I never should have unzipped myself
I never should have gone through the trouble
I could've continued to see through the eyes
The eyes, the eyes of my body double
I don't want to touch feel taste
I don't want to breathe in this waste
Let me rot in peace

This should have been my end
Until we meet again
But I'm all, all the while tripping
While tripping on my toe tag
Confusion came to check my pulse
Cause now they know I've died the most

JASON KLEIN - BASS

VI THE HUNTSMAN

What big eyes
I know he's watching
What sharp teeth
I know he's hungry
I can taste him smell him on my skin

He Hunts me down
Down on my knees
He wants me now
Now That I bleed
for him
We'll drown
Forcing me
He wants me down
Down on my knees
He Hunts me

What strong hands
Its how he binds me
What tight reigns
His word controls me
He can chase, but two
can play this game
He Hunts Me

Go on and taste me
Taste me
As we slowly waste away
I'll waste you
As we slowly fade away
This is my game
Go on and chase me
I'll chase you
I'll erase you from my mind
Erase you
This is my game now

VII CONTROLLER

You think I'm stupid cause
I've played your game for far too long
I'm stupid
Nah you're stupid
You think I'm a sucker
Like a pawn you play breaking all the rules
I'm a sucker
Nah you suck

So Let's play your game, I'm crazy
I followed you home, I'm crazy
I watched you eat, I watched you sleep
You know I'm fucking crazy

Play! Just push play
Play on this game
Play on this
Run don't walk and try to keep up
Play! Just push play
You want this game
So play this
Run don't walk and try to keep up

Hey there Billy, you silly little boy
You thought your head games would
lock me in, but guess
What I found my way out
You think I'm desperate
That I'm hanging on your every word
I'm desperate
Oh so desperate

I know I'm outta control
You think you're in control
We've all lost control
So on your mark
Get set
GO!

You know I'm fucking CRAZY

CHASE BRICKENDEN - DRUMS

VIII OCEANA

Try to keep a grip on your rubbery skin
But I am no match Sink your jagged teeth in
It's never enough for me
It's never enough for me
Sharing my blood with the sea
And I'm gone

This time I'm in deep in the water
The murky water, it pulls me under
I feel it cover me
A whirlpool in my lungs
Now I feel at one
I get the sudden itch and I'm gone
See you later!

Deeper to the deepest
Always sinking eye to eye
With the fathers of the sea
We're fearless

Following the undertow
Sink to the lowest low
And now I know I'm

Swimming always
Swimming deeper
I always seem to find myself
Swimming with the
sharks in a fight
I cant win but i always seem to start
Swimming always swimming
Cause the bait of a chase
It pulls me from the cage
I'm a beast for defeat so let it swallow me
Swimming god damn swimming deeper down

Senses touch all my senses
With the lashing of the tide
seducing all my pride
defenseless

Following the undertow
Sink to the lowest low
and now i know I'm
Swimming always swimming deeper
Swimming always
Swimming deeper down

Down we go to the bottom of the under tow
Down we go i try so hard to follow the glow
Cause I always seem to find myself
Washed up with the tide
Strangled by the sea engulfing all my sight
Drowning always drowning deeper down
The roar of the waves pushes me back to shore
With my tail between my legs
But i'll come back for more
Drowning always drowning deeper Down

I always seem to find myself
Swimming with the sharks (6x)
Swimming with the sharks
Swimming with the sharks
With the Sharks With the sharks

Swimming always swimming deeper
I always seem to find myself
Swimming with the sharks in a fight
I cant win but i always seem to start
Swimming always swimming
Cause the bait of a chase
It pulls me from the cage
I'm a beast for defeat so let it swallow me
Swimming god damn
Swimming deeper down

IX LOOK WHAT WE'VE DONE

Oh, I can see what you see
It's all in front of me
I can only feel what you feel
It's deep inside of me

I can walk the way you walk
I can talk the way you talk
I've given every inch of me

How could I have been so lost

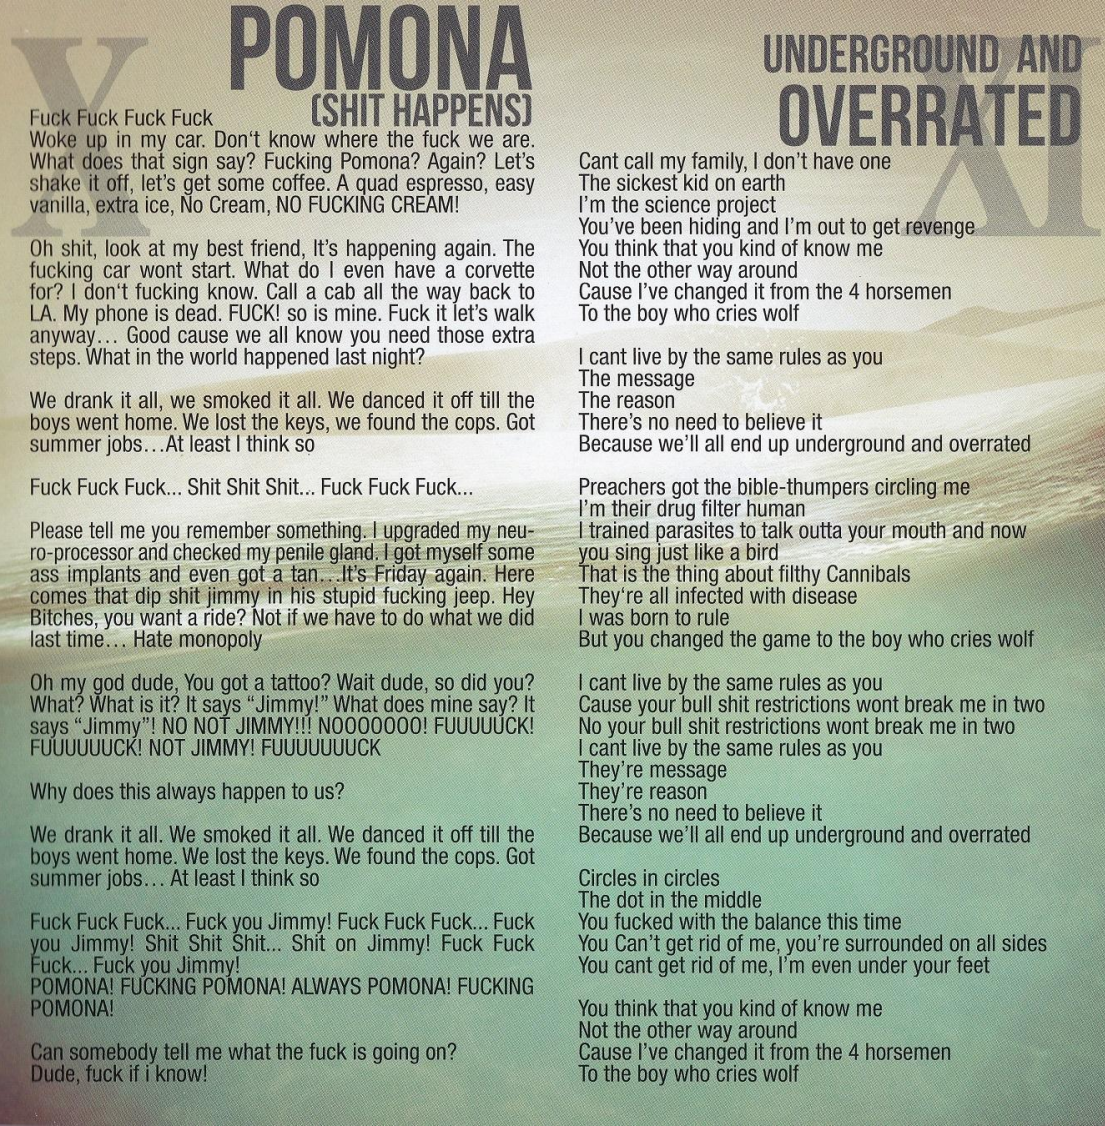

We held so strong
As we built a path so wrong
We felt so in control as we were spiraling
Look What we've done
Bloody and damned
I cant wash this off my hands
We felt so beautiful as we were spiraling
Look what we've done

You can only breathe what I breathe
It's all I give of you
You can only hate what I hate
You're driven by my rule

You're not real
Unless I give you the chance to truly live
Exhausting all your love and trust

Who am I
Who am I
Am I dead, Am I alive
A skeleton with soulless eyes
Does this end with truth or lies

Will I remain this way
Does this ever change
Do I take the blame
Or simply run away

POMONA (SHIT HAPPENS)

UNDERGROUND AND OVERRATED

Cant call my family, I don't have one
The sickest kid on earth
I'm the science project
You've been hiding and I'm out to get revenge
You think that you kind of know me
Not the other way around
Cause I've changed it from the 4 horsemen
To the boy who cries wolf

I cant live by the same rules as you
The message
The reason
There's no need to believe it
Because we'll all end up underground and overrated

Preachers got the bible-thumpers circling me
I'm their drug filter human
I trained parasites to talk outta your mouth and now
you sing just like a bird
That is the thing about filthy Cannibals
They're all infected with disease
I was born to rule
But you changed the game to the boy who cries wolf

I cant live by the same rules as you
Cause your bull shit restrictions wont break me in two
No your bull shit restrictions wont break me in two
I cant live by the same rules as you
They're message
They're reason
There's no need to believe it
Because we'll all end up underground and overrated

Circles in circles
The dot in the middle
You fucked with the balance this time
You Can't get rid of me, you're surrounded on all sides
You cant get rid of me, I'm even under your feet

You think that you kind of know me
Not the other way around
Cause I've changed it from the 4 horsemen
To the boy who cries wolf
